Bioinformatics

FEBRUARY 26-27, MARCH 5TH 2022

FREE ONLINE REGISTRATION:
WWW.BEYONDSCIENCES.ORG/CONFERENCE2022

Science & Society is an online conference that provides scholars worldwide an opportunity to present their research and network with a broad scientific audience.

Undergraduate and graduate students as well as health professional trainees are invited to register. Throughout the conference registrants can engage with the presenters in each session through live chats and will have the opportunity to network. In addition to current scientific content, Hot Docs - short documentaries on outreach activities, community and social justice activities - will be showcased from around the globe. Check out our announcement video: https://youtu.be/f9dHaSzJ_zg

J.C. Zúñiga-Pflucker, PhD
